

The Epic Fronts Project

You and your team will be teaching the class about one of the four types of fronts. You will be doing this by creating a video to teach about the front, writing a song, and creating a handout. You will also write test questions to be included on our next assessment. Share the work between your team members. Listen to each other and focus on your strengths.

You need to make sure your project includes the following information about your front:

- What happens at the front boundary
- Types of air masses involved
- Clouds associated with the front
- Weather that happens at front
- Weather after the front moves past
- Diagram of the front
- Front symbol

My team's assigned front is

We will only have computer access two days (Wednesday, February 29 and Thursday, March 1), so you need to use those two days to type out what you need to and edit your video. We will begin viewing projects in class on Friday, March 2. All components of the project are due **Friday, March 2**.

You will be graded on the following components:

- | | |
|---------------------------------|-----------|
| • Video | 25 points |
| • Handout | 20 points |
| • Song | 20 points |
| • Test Questions | 20 points |
| • Team Participation Evaluation | 15 points |
